Soldier Girls is a feature film on the initiation rites of women army recruits. The film follows a platoon of fifty young female recruits at Fort Gordon, Georgia, as they undergo fourteen weeks of basic training. Soldier Girls is an exposé of the methods and rituals involved in training today's army; it highlights the ironies of training for war in peacetime and preparing women for lives of combat. Priscilla Forance from Churchill Films will comment on the film. March 24, 7PM, Murkland 110.

Jody Blouch has done the basic groundwork for assembling the WOMEN'S STUDIES RESOURCE FILE, which was a massive task of organization. (Thank you, Jody, for your work!) She offers the following information about the Resource File. Instructors of cross-listed courses are urged to call their student's attention to this source of information about women:
"The Resource File"

The UNH Women's Studies Resource File is a collection of bits and pieces of information on all manner of subjects relating to women. Newspaper clippings, brochures, pamphlets, reports, scholarly papers, catalogues, bibliographies and lists of statistics are among the items making up the file. The first part of the resource file contains information categorized by the issue or subject with which it deals. A newsletter file makes up the second part of the file. The resource file is divided in this way because the newsletters, published by different organizations for women, generally deal with several subjects within a single issue of the newsletter. Therefore, they can't be filed under a single, specific subject heading. The subject file is labelled in white. Newsletter file folders, located at the back of the bottom drawer, have green labels.

Use the resource file to obtain ideas for papers, references, networking resources, or facts about an issue concerning women. Here's how to approach it:

Begin by consulting the Resource File Guide located in a folder at the front of the top drawer in the cabinet. Read through the entire list. Note all the categories which may be related to your subject. For example, if you're looking for information on the effect of the women's movement on the family, you may want to look at the files on "Family Planning," "The Whitehouse Conference on Families," "Divorce," "Work: Two Career Families," "Lesbianism," "Domestic Violence," in the subject file and/or the files entitled Family Life Facts, Family Planning Perspectives, Momma, and SANE news, in the newsletter file. In addition to sifting through the information contained in folders relating directly to your topic, look in the Printed Resources file for places to go for further information.

The "Media: Catalogues and Brochures for Audio/Visual Media" may also be helpful in research on any subject. Because of the patchwork quilt nature of the file, using it may involve something of a sifting process. We encourage you to brainstorm on all approaches to your topic and to glance at folders which may be indirectly related to your research. Our category divisions may be different from the way you have categorized women's issues. We hope the resource file is useful, and we welcome the feedback, suggestions or contributions you wish to offer.

Let's Get Rid of 'The Girl'

A manager says, "My girl will get back to your girl."
What girl?
Do they mean Miss Rose?
Do they mean Ms. Torres?
Do they mean Mrs. McCullough?
Do they mean Joy Jackson?
"The girl" is certainly a woman when she's out of her teens.
Like you, she has a name. Use it.

Wouldn't this be a great year to take one giant step forward for womankind and get rid of "the girl"?
Your attorney says, "If I'm not here just leave it with the girl."
The purchasing agent says, "Drop off your bid with the girl."
