AGENDA

11:00-11:30  
Registration

11:30-12:30  
Welcomes and Lunch

12:30-2:30  
Faculty Small Work Group Sessions

Participants break up into small groups to discuss the following aspects of articulation agreements. Each group will have a note taker and a facilitator.

Articulation agreements are a joint partnership between an academic program at UNH and an academic program at CCNH. They assist in transferring coursework.

Discussion Questions:

1) Which majors lend themselves to articulation agreements?

2) How many courses (credits) in a given major may be taken at the CCNH and transferred into the major at UNH. What are the foundational courses in your programs?

3) How do we determine course equivalency? What frameworks (syllabi) and outcome assessments can be shared? What is the timeline for establishing these?

4) How can we create a true 2 + 2 agreement? What list of courses (both Discovery and major courses) can be taken at the CCNH and transfer to UNH by prior agreement. What is the maximum number of credit hours?

(continued on reverse side)
AGENDA continued

5) How do CCNH students proceed: who advises them? Do they apply to UNH at the same time they apply to CC?

6) How does UNH provide courses for CCNH that are not part of the CC Humanities curriculum. For example, does the CC want UNH to develop online courses that are consistent with the offerings at UNH? Summer School options?

7) To what extent is the 3-credit/4-credit difference between CCSNH and UNH a problem for students transferring within a given major and are there possible solutions to creating course equivalences given this disparity?

8) What are the biggest challenges and obstacles? What resources are needed to address them?

Administrator Small Group Work Sessions

Discussion Questions:

1) What articulation agreements exist? What remains? Determine order and timeline. Formalize the process, including periodic review.

2) What are the biggest challenges and obstacles?

3) What resources do we need? What resources can we share between institutions?

4) How can we accelerate the creation of a true 2 + 2 agreement? Which programs are best suited? Set a timeline.

2:30-3:00 Report Out/Next Steps

Small groups report out to the larger group and align around next steps.
