DURHAM, NH – District 1 Congresswoman Carol-Shea Porter’s favorability ratings are at their highest point since 2012, and she leads her two potential GOP challengers. District 2 Congresswoman Ann Kuster continues to struggle with poor favorability ratings and is in a dead heat with relatively unknown challenger Marilinda Garcia.

These findings are based on the latest **WMUR Granite State Poll**,* conducted by the University of New Hampshire Survey Center. Five hundred and seven (507) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between April 1 and April 9, 2014. The margin of sampling error for the survey is +/- 4.4 percent. Included were 259 residents of New Hampshire’s First Congressional District (MSE = +/- 6.1%) and 248 from the Second District (MSE = +/- 6.2%).

Favorability Ratings – Congresswoman Carol Shea-Porter

Democrat Congresswoman Carol Shea-Porter, who was elected in 2006 from New Hampshire’s First Congressional District, lost in 2010, and regained the seat in 2012, remains modestly popular in her district. Currently, 45% of 1st District adults have a favorable opinion of Shea-Porter, 30% have an unfavorable opinion, 9% are neutral, and 16% don’t know enough about her to say. Her net favorability rating, the percentage who have a favorable opinion of her minus the percentage who have an unfavorable opinion, is +15%, which is up from +7% in January. This represents Shea-Porter’s highest net favorability score since August 2012. She is very popular among Democrats (net +61%), somewhat popular among Independents (net +10%), and unpopular among Republicans (net -28%). Shea-Porter’s net favorability among likely 2014 voters is +16%.

GOP Challengers for U.S. Congress – District 1

The Republican field for the 1st District seat appears set. The two GOP candidates are former Congressman Frank Guinta (R-Manchester) who was defeated by Shea-Porter in 2012 and former UNH business college Dean Dan Innis (R-Portsmouth).

Guinta, who was mayor of Manchester from 2006 to 2010, is the better known of the two but his favorability ratings have been unstable in recent months. Currently 27% of 1st C.D. adults have a favorable opinion of Guinta, 33% have an unfavorable opinion of him, 7% are neutral and 33% don't know enough about him to say. His net favorability rating is -6% which is down from +7% in January. Guinta is somewhat popular among Republicans (+16%), somewhat unpopular among Independents (net -6%), and is unpopular among Democrats (net -20%). Guinta's net favorability among likely 2014 voters is -5%.

Favorability Ratings - Frank Guinta NH 1st District

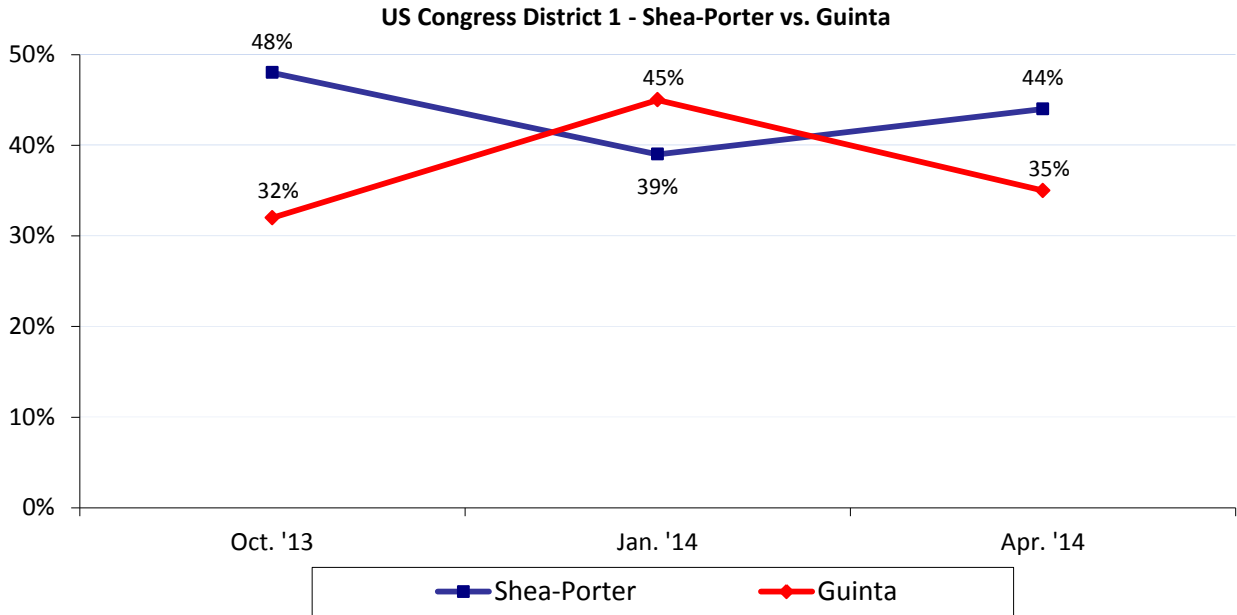

Innis remains largely unknown in the 1st District. Currently, 12% have a favorable opinion of Innis, 4% have an unfavorable opinion, 6% are neutral and 79% don't know enough to say. His net favorability is +8%, unchanged since January. Innis's net favorability among likely 2014 voters is +9%.

Favorability Ratings - Dan Innis NH 1st District

2014 U.S. Congress Election – 1st District

In a trial heat between Shea-Porter and Guinta, 44% of likely 1st District likely voters say they would vote for Shea-Porter if the election were held today, 35% would support Guinta, and 21% are undecided. This race has reflected Guinta's relative popularity as Guinta led by 6 points in January when he also had a positive net favorability rating.

If Dan Innis were the Republican nominee, 45% of likely voters say they would vote for Shea-Porter if the election were held today, 29% for Innis, and 25% remain undecided. This race has been largely unchanged since October.

As would be expected in hypothetical matchups this early, Democrats and Republicans largely support their party's candidate and a high percentage of independents are undecided. Currently, Shea-Porter holds double-digit leads among independents over both Innis (47%-25%) and Guinta (47%-35%). There is a significant gender gap in these hypothetical matchups. Among women, Shea-Porter leads Guinta by 22 percentage points and Innis by 27 percentage points. Among men, Guinta leads Shea-Porter by 6 percentage points, while Shea-Porter has 5 percentage point edge over Innis.

Favorability Ratings – Congresswoman Ann Kuster

In New Hampshire’s Second Congressional District, first term Congresswoman Ann Kuster’s favorability ratings continue to remain low. Currently, only 27% of 2nd District adults have a favorable opinion of Kuster, 33% have an unfavorable opinion of her, 10% are neutral, and 29% don’t know enough about her to say. Her net favorability rating is very low for an incumbent, -6%, which is down from -2% in January. She is popular among Democrats (net +46%), but is very unpopular among Independents (net -50%) and Republicans (net -36%). Kuster’s net favorability among likely 2014 voters is -5%.

Favorability Ratings – Ann Kuster NH 2nd District

GOP Challengers for U.S. Congress – District 2

The two Republican candidates who have challenged Kuster are former State Senator Gary Lambert (R-Nashua) and State Representative Marilinda Garcia (R-Salem). Neither is particularly well-known -- only 4% of Second District adults have a favorable opinion of Lambert, 6% have an unfavorable opinion, 9% are neutral, and 80% don’t know enough about him to say. His net favorability rating is -2%, which is down from +1% in January. Lambert’s net favorability among likely 2014 voters is also -2%.

Favorability Ratings - Gary Lambert NH 2nd District

Meanwhile, 13% of Second District adults have a favorable opinion of Garcia, 6% have an unfavorable opinion, 5% are neutral, and 76% don't know enough about her to say. Her net favorability rating is +7%, which is up from +5% in January. Garcia's net favorability among likely 2014 voters is +11%.

2014 U.S. Congress Election – 2nd District

Despite being relatively unknown in the District, Garcia is in a dead heat with Kuster. If the election were held today, 34% of likely voters in the 2nd District say they would vote for Kuster, 33% would vote for Garcia, 1% would vote for someone else and 32% are undecided.

When matched with Lambert, 38% of likely voters in the 2nd District say they would vote for Kuster if the election were held today, 31% would vote for Lambert, 1% would vote for someone else and 30% are undecided.

Both Garcia (38%-14%) and Lambert (34%-14%) lead Kuster by double digits among independent voters. But the primary reason Garcia does better than Lambert when matched with Kuster is that Garcia gets more support among women. Kuster leads Lambert by 16 percentage points among women but only leads Garcia by 5 percentage points.

Granite State Poll Methodology

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center. Five hundred and seven (507) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between April 1 and April 9, 2014. The margin of sampling error for the survey is +/- 4.4 percent. Included were 259 residents of New Hampshire's First Congressional District (MSE = +/- 6.1%) and 248 from the Second District (MSE = +/- 6.2%).

The data have been weighted to adjust for numbers of adults and telephone lines within households, respondent sex, age, and region of the state. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may sum to just above or below 100%. Respondent numbers in each demographic may not equal the total respondent number due to respondents choosing not to answer some demographic questions.
