## FINANCIAL AID

UNH allows all federal, state, and institutional aid (with the exception of Work Study and performance-based scholarships) to be applied to study abroad costs. This includes both costs you pay to UNH as part of the program (tuition and fees) and other personal expenses related to your program (airfare, meals, books, etc.) As soon as the COLA Center for Study Abroad notifies the Financial Aid Office that you are going to participate in the study abroad program, the Financial Aid Office will adjust your budget to reflect your new program costs. Your Financial Aid will credit your account at Business Services. You may request a refund of any remaining balance through your online UNH student account. (Please note: if your parent has borrowed a PLUS Loan on your behalf, those remaining funds will be sent to the borrower of that loan.) Please contact the UNH Financial Aid Office with any questions or to discuss your financial options in detail at 603-862-3600.
