

University of New Hampshire Unwanted Sexual Experience Survey 2012

Banyard, V., Cohn, E., Edwards, K., Moynihan, M. M., Walsh, W. & Ward S. (2012). University of New Hampshire

This is a study of the incidence of certain types of sexual and physical experiences in relationships on campus. The questionnaire takes about 20 minutes to complete. Your participation is voluntary, and you may choose to skip questions or stop responding at any point. However, your cooperation would be greatly appreciated and would contribute to our understanding of a very important aspect of student life at UNH.

If you agree to participate, you can be assured that your responses are **completely anonymous**. Your responses will be reported in terms of groups of students rather than as individual cases. Your questionnaire has been assigned a number and will be referred to in terms of that number. **Please do not sign your name to the questionnaire**. You may stop your participation at any time or choose not to answer particular questions without penalty. Some of the questions will ask about sexual and personal information. Some individuals might experience emotional discomfort while answering some of the questions. However, we know from previous research that for the vast majority of participants, answering these types of questions is not upsetting, and for those individuals who report being upset, it is usually minimal and transient.

The principal investigators of this study are Ellen Cohn (ellen.cohn@unh.edu), Mary Moynihan (marym@unh.edu), Wendy Walsh (wendy.walsh@unh.edu), Katie Edwards (katie.edwards@unh.edu), and Vicki Banyard (victoria.banyard@unh.edu). They can answer additional questions you may have about the study. If you have questions or concerns about your rights as a research participant you can contact Julie Simpson in the Office of Sponsored Research at (603) 862-2003.

I confirm that no coercion of any kind was used in seeking my participation in this research project and that I have read and fully understand the purpose of the research project and its risks and benefits.

Please check one of the boxes below:

I agree to participate _____ → Please begin filling out the questionnaire now.

I decline to participate _____

I completed this questionnaire in another class or online _____

If you choose not to participate or have already completed the questionnaire in another class or online, please follow the instructions given by the people administering the questionnaire regarding returning the blank questionnaire and this consent form. Thank you.

This is a study of relationship and academic experiences on campus. We would like to ask you some questions about your feelings and experiences and hope that you will fill out each section of the questionnaire. However, you are free to refuse to answer any of the questions. Because it is extremely important to get reliable information, we appreciate your willingness to help.

The survey usually takes about 20 minutes to fill out.

This survey is divided into eight sections. PLEASE READ THE INSTRUCTIONS CAREFULLY for EACH SECTION before responding to the questions. Some questions will ask about experiences during your entire lifetime, whereas other questions will ask about experiences just during this school year (since the start of the fall 2011 semester). CHOOSE ONLY ONE ANSWER PER QUESTION unless you are specifically told that you may fill in more than one answer.

Please indicate here if you have already filled out this survey:
