You love reading novels, you love to write, or you're fascinated with the origins of the English language. These are all good reasons to pursue a degree in English, which will give you broad exposure to the history and literature of the English language, while you also learn critical thinking skills and how to write clearly and persuasively. English majors are experts in the art and science of words, allowing you to expand your imaginative potential and solve real-world problems. The English program at UNH offers a great deal of flexibility. After completing the basic degree requirements, you'll be able to focus your studies on literature; writing, including fiction, creative non-fiction, poetry and digital storytelling; or areas within linguistics, such as language formation.
